

As BRIGHT BABIES we strive to....

PSED

Grow in confidence who learn to express feelings openly and freely. Develop self-awareness, build strong, trusting relationships within the room with both familiar adults and other children.

C&L

Dive into sound exploration, recognising what's familiar and learn new sounds/words. Begin to express ourselves and can tune in and develop our listening and concentrating skills through joyful and engaging experiences. Be playful with others.

PD

Have daily opportunities for tummy time, to roll, reach and grasp different objects. Have safe spaces to practise crawling, standing, climbing and early walking. Take risks, challenge ourselves and develop fine and gross motor skills through independence.

LITERACY

Explore stories, rhythm and sounds through a wide range of different media and activities. We love nothing more than getting cozy in our 'Calm Area' with our peers, reading exciting stories.

MATHS

Learn to balance and stack through loose parts, explore size, shape and patterns through curiosity and begin to learn numbers through songs, books and play.

UTW

Love and explore the world and interesting things around us. We look, listen and feel to discover and understand the world that we live in.

EAD

Explore a range of materials through sensory hands on experiences. Express ourselves through movement, sound and touch.

CIRCLE TIME

Become fantastic friends who learn to share and take turns. Have fun and learn with others as part of a group.
